## About - WebVista

We - WebVista (located at Morbi, Gujarat, INDIA) are team of three web developers who are full time working on Siberian CMS related developments like Siberian CMS Layouts, Modules, Custom Scripts, CSS etc since 2016.

In last 6-7 years we have worked with many clients across the globe for their custom requirements regarding the Siberian CMS.

We have a wide portfolio of Siberian CMS add-on items like layouts, modules etc.

You can check it here: <https://extensions.siberiancms.com/vendor/savsani/>

We have a special online store for Siberian CMS add-ons: <https://shop.webvista.co.in/>

We have developed 50+ layouts for Siberian CMS. Some are private layouts and major are available on the market: <https://shop.webvista.co.in/downloads/layouts-bundle-offer/>

We have developed 25+ modules for Siberian CMS. Some are private modules and major are available on the market: <https://shop.webvista.co.in/siberian-cms-modules/>

We are official listed 3rd party Siberian CMS developer: <https://www.siberiancms.com/community/d/5-3rd-party-developers>

## Layout-S35 Overview

This layout will have a slider, side menu and main menu.

Slider will consist maximum five slides, we'll try to make this dynamic so if you just fill slide image URL for three slides only then it will just display the three slides only.

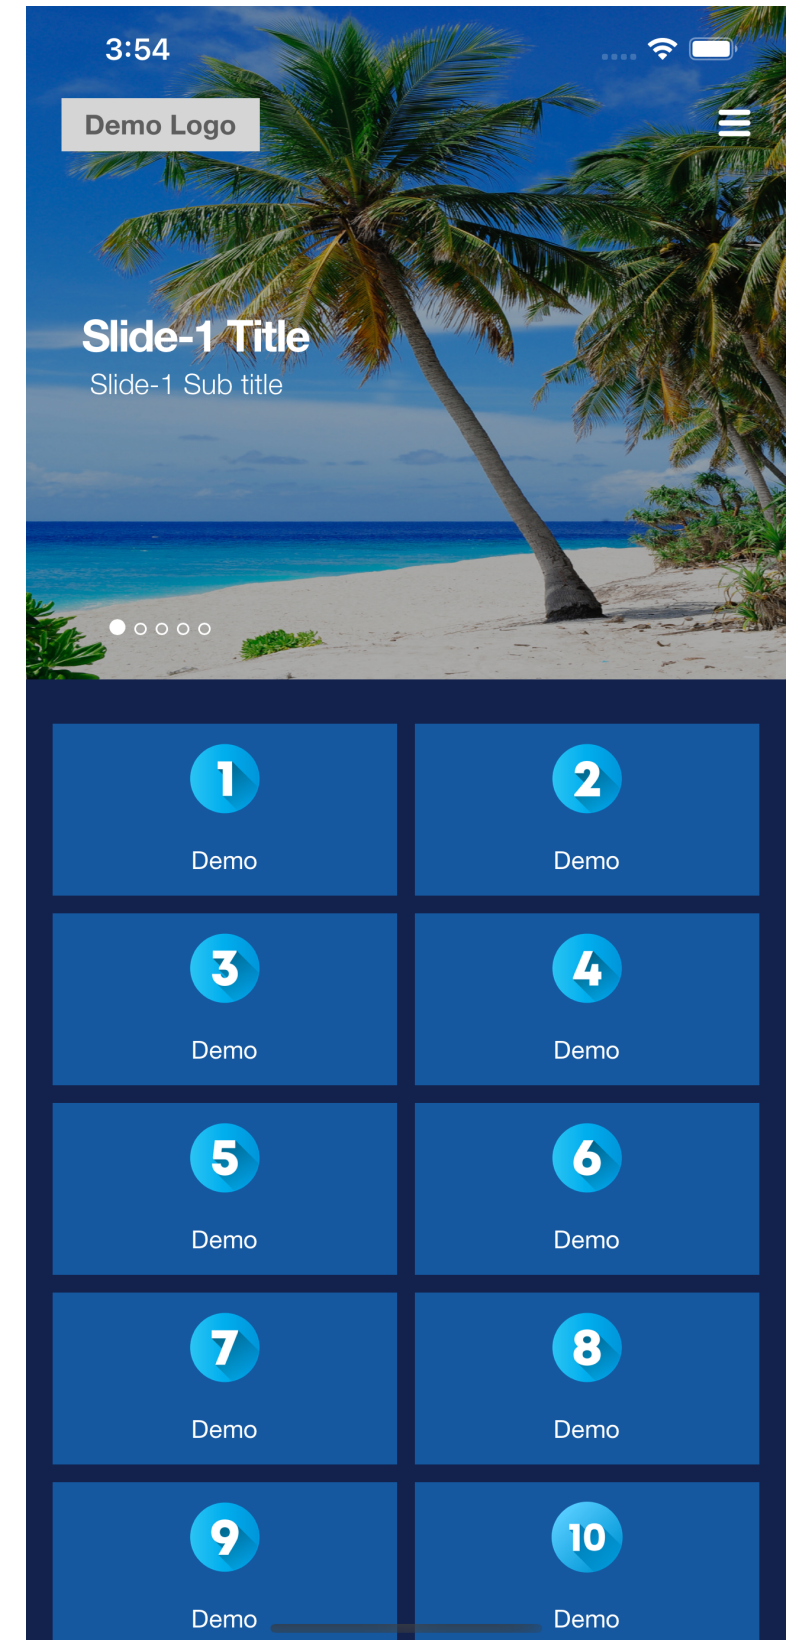

You can set the slide image URL, slide title text & sub-title text from the layout options.

Default slider will be like as shown in the right side image, there will be an option in the layout options for curved bottom left border.

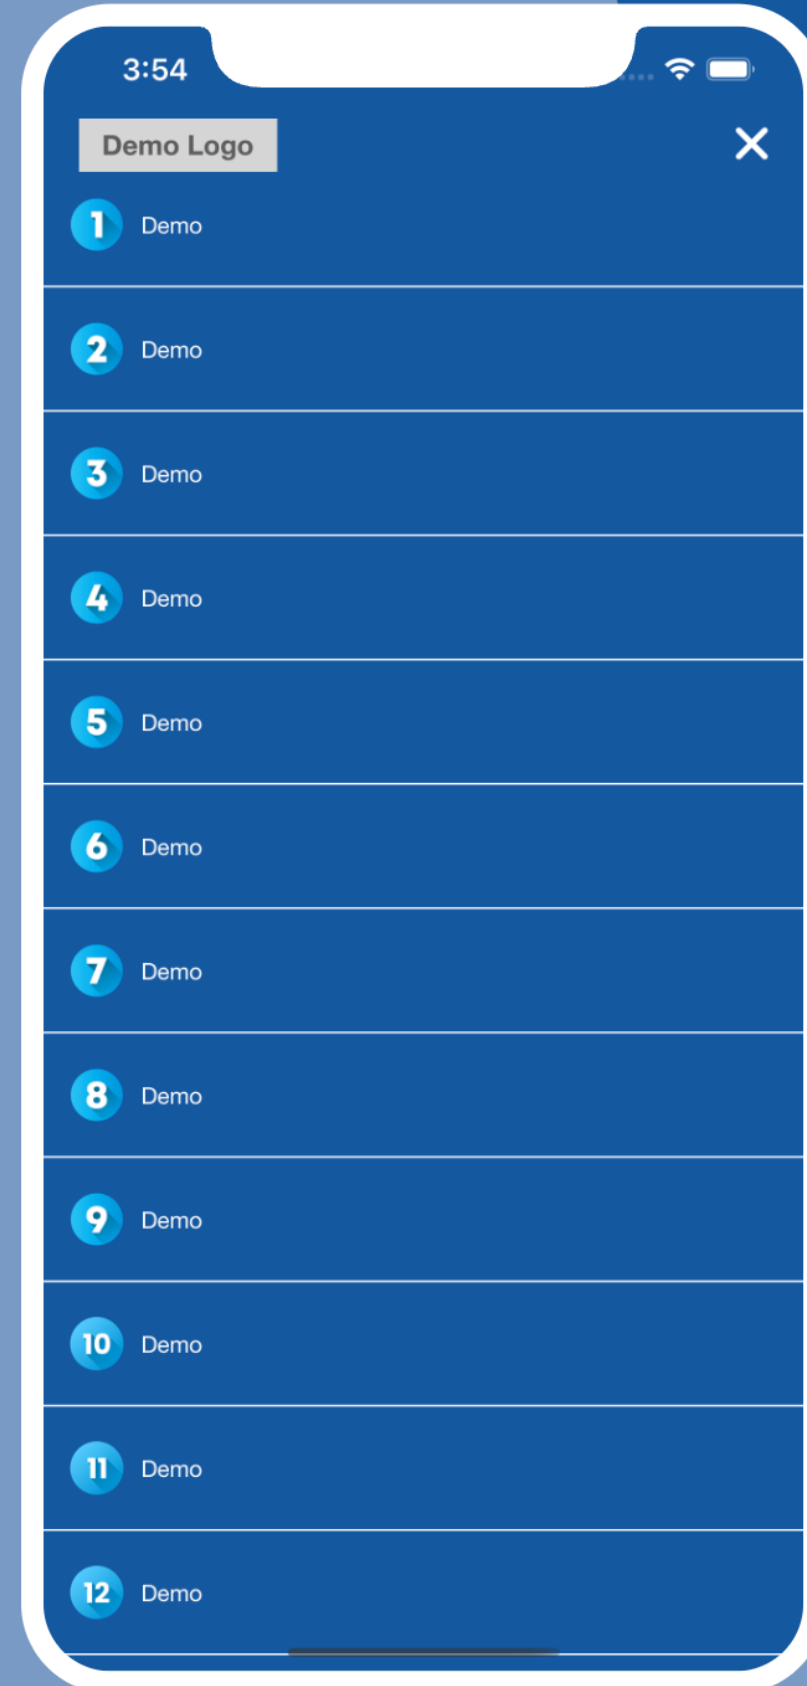

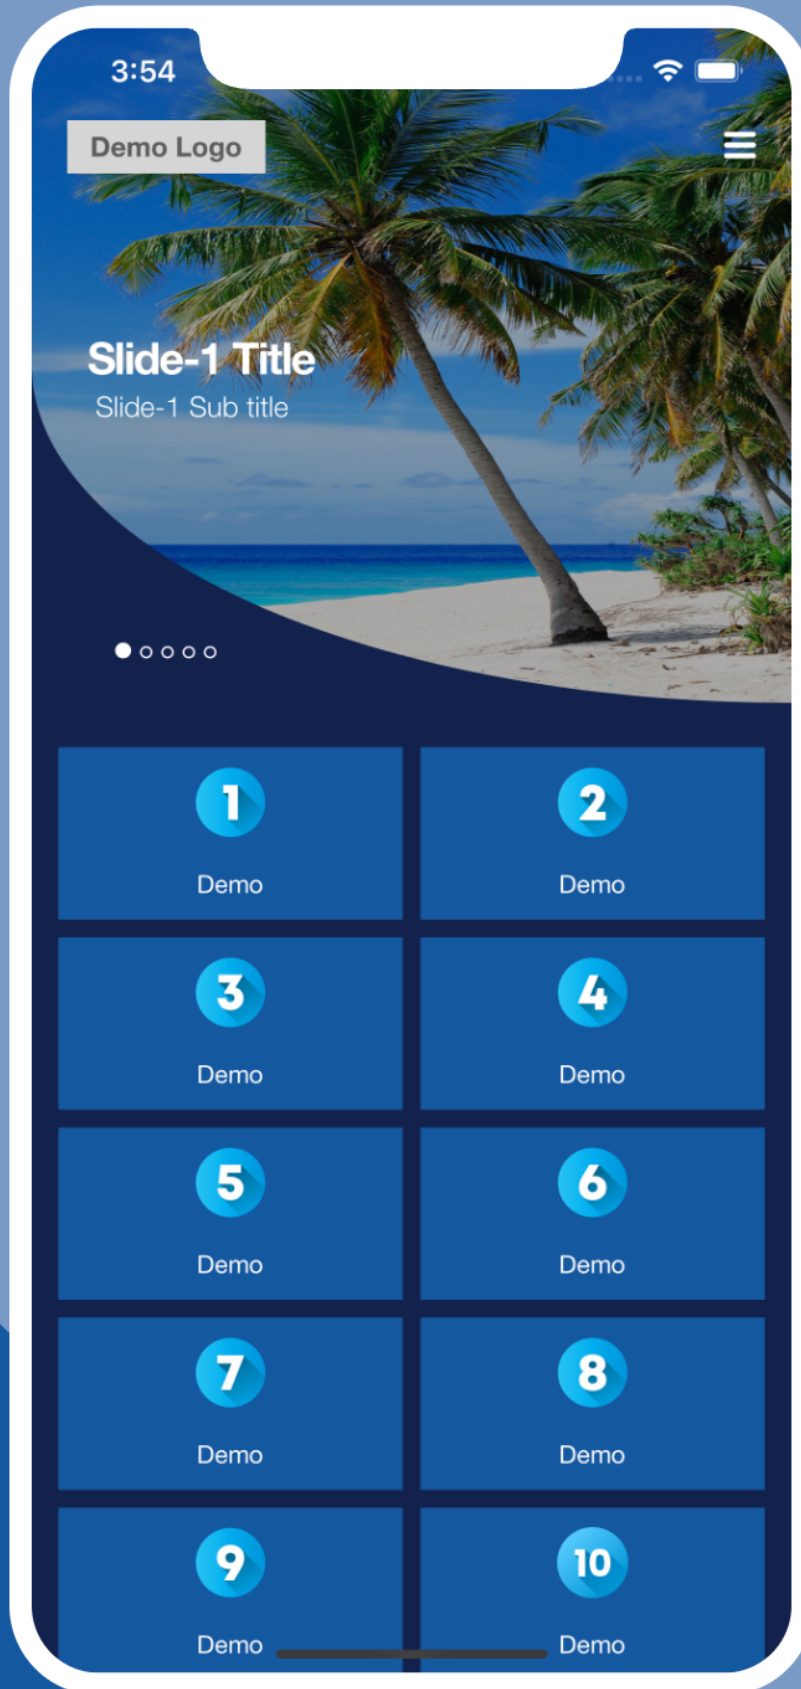

You can set all colors from the layout options like slider title & sub-title text color, slider pager color, menu icon color, main background color etc.

You can set logo image url from layout options.

You can choose main menu style 2/3 columns.
